Benefit Illustration

Dear Customer,

This illustration has been prepared by ING Vysya Life Insurance Company Limited in accordance with the Standards of Conduct and Sound Practice issued by the Life Insurance Council of India and has been approved by the Board of Directors of ING Vysya Life.

The Plan: Powering Life Limited Payment Endowment Plan participates in the profits of the Company. While the policy is in full force, the Sum Assured and bonuses declared if any are payable on death or maturity. In case of Surrender of the policy, after at least 2 full years' premiums have been paid, a cash surrender value is payable.

Expected Interest Rates: For the purpose of projecting benefits under this policy, the Life Insurance Council has prescribed two rates of returns. Currently the prescribed higher rate is 10% p.a. and the lower rate is 6% p.a.

Expected Bonus Rates: The bonus rates are illustrated assuming that the rate of return on the Company's investment remains the same throughout the policy term.

Guarantees: Provided the policy is in full force, the Sum Assured is guaranteed and is payable on Death or on Maturity. Bonus rates shown overleaf are not guaranteed. However, bonuses already declared while the policy had been in force, are guaranteed, and are payable on Death or on Maturity. Bonuses are declared based on the performance of the Company. An additional terminal bonus may also be declared by the Company. The bonuses shown overleaf include both annual and terminal bonuses if any.

Please note that past performance is not necessarily indicative of any future performance of the Company.

Cash Surrender Value: This policy may be surrendered for cash at any time after payment of at least two full years' premiums. The Guaranteed Surrender Value (GSV) will be 30% of total premiums paid excluding the first years' premiums and all extra premiums. Special Surrender value if higher than GSV, may be paid by the Company at rates, as may be determined from time to time.

Statutory Warning: Some benefits are guaranteed and some benefits are variable with returns based on the future performance of your Insurer carrying on life insurance business. If your policy offers guaranteed returns then these will be clearly marked "guaranteed" in the illustration table overleaf. If your policy offers variable returns then the illustrations overleaf will show two different rates of assumed future investment returns. These assumed rates of returns are not guaranteed and they are not the upper or lower limits of what you might get back, as the value of your policy is dependent on a number of factors including future investment performance.
